

## H1N1 Vaccine Location Information

Information updated weekly

Last Updated: 11/19/09

We continue to be affected by manufacturing delays at the national level, and last week our local community partners and Lane County Public Health received a combined total of 9,200 doses. To date, 43,800 doses have been distributed to Lane County. This is about 25% of the doses needed to vaccinate the approximately 170,000 Lane County residents in the priority groups.

The latest data indicates that the people most seriously affected by the current H1N1 virus in Oregon are those with underlying health conditions. Efforts currently are focused on immunizing people within this population. Lane County Public Health is advising people at **highest risk** for influenza complications to get vaccinated as soon as possible.

### Who Can Get Vaccinated (Priority Groups)

The following groups of people should receive H1N1 immunization as soon as it is available:

- Children under age 5, especially children between 6 months to 2 years old.
- Pregnant women.
- Children and adults with certain special health care needs ages 5-64 years with chronic medical conditions that put them at risk for complications from influenza infection. This includes patients with serious asthma, other lung disease, heart disease, diabetes or those with neuro-developmental and other conditions that increase risk of choking.
- Household members and caregivers of babies under 6 months of age
- Health care workers
- Front line law enforcement and public safety workers

Healthy people 5 to 64 years old and all adults 65 and older are being asked to wait for their vaccine until more is available. While vaccine is in such short supply, the focus for vaccination has been narrowed to the groups listed above.

For more information on H1N1 influenza, click here or visit <http://www.lanecounty.org/H1N1>

## Where to Get Vaccinated

We've divided our local partners that may have H1N1 vaccines available this week into 4 lists, [Community Vaccination Sites](#), [Pharmacies](#), [School Vaccination Sites](#), and [Doctors/Clinics](#).

### COMMUNITY VACCINATION SITES

The following is a list of community vaccination sites. If you do not have a regular health care provider, community vaccination sites are where you can get an H1N1 vaccine in Lane County. These sites offer access to vaccine to those people in the priority groups without additional restrictions (like being an established patient). Hours, dates and locations are listed below. Read each provider's notes for more details.

Location	Dates(s) & Time	Other Information
<b>Cottage Grove Community Hospital and Clinics</b> 1515 Village Drive Cottage Grove, OR 97424 (541)942-6614	Day(s) of week: M,T,W,Th,F 10:00 AM to 4:00 PM	<b>Fee:</b> \$15.00 <b>Age Restrictions:</b> 6 months - 64 years <b>Notes:</b> Call for appointment. Hablamos español

Please don't call. Line starts at 1pm.

### Pharmacies

Pharmacies are a good option also if you do not have health insurance or a primary care provider. Please remember that you **must be in a priority group** (see first page) in order to receive vaccine. Pharmacists can only vaccinate people 15 years old or older.

### **SCHOOL VACCINATION SITES**

The following is a list of schools where H1N1 vaccination will be offered to those members of the school community (students and their families, and school staff) that meet the criteria for highest priority groups listed (see page 1). Priority will be given to children who are at the highest risk for developing complications from the H1N1 flu.
