Cartography Map Information

Cartography manages a collection of approximately 3600 assessor maps. These maps have gone through several transitions as cartographic technology changes. In 2013 the Cartography unit completed a multiyear effort to convert the Computer Aided Drafting (CAD) format maps to Geographic Information System (GIS) format maps. The GIS format is consistent with a state wide effort (ORMAP) to normalize all assessor map data.

The Lane County map numbering system is based on the Public Land Survey System. The principle of this system is the division of the State of Oregon into a six mile grid of Township and Range lines in the four quadrants defined by the Willamette Meridian and the Oregon Base Line. The resulting 36 square mile townships are further subdivided into 36 Sections and subsequent Quarter Sections. The map title refers to a specific location within the system.

FOUR QUADRANTS OF THE U.S. RECTANGULAR SURVEY SYSTEM

The following disclaimer is included on our Real Property Tax Lot Records:

"In preparation of these records, every effort has been made to offer the most current, correct, and clearly expressed information possible. Nevertheless, inadvertent errors in information may occur. In particular but without limiting anything here, Lane County disclaims any responsibility for typographical errors and accuracy of this information. The information and data included on Lane County servers have been compiled by Lane County staff from a variety of sources, and are subject to change without notice to the User. Lane County makes no warranties or representations whatsoever regarding the quality, content, completeness, suitability, adequacy, sequence, accuracy, or timeliness of such information and data." "The legal descriptions contained herein are for tax lot purposes only."

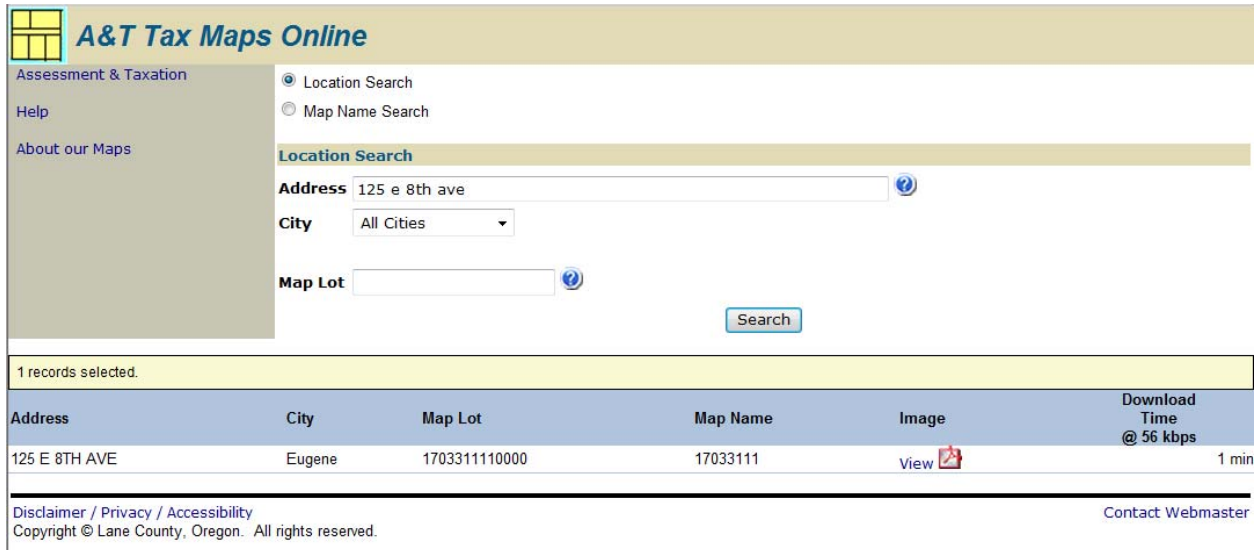

Location Search

In the Address field enter the house number and street name. Use abbreviations for street directions (North=N, East=E, South=S, West=W) and street types.

Correct: 125 E 8th Ave

Incorrect: 125 East 8th Avenue

You can enter any part of an address in a search. For example 125 E 8th Ave could be searched for using: 125 E or E 8th or 8th Ave. You can use the City dropdown menu to narrow your search results.

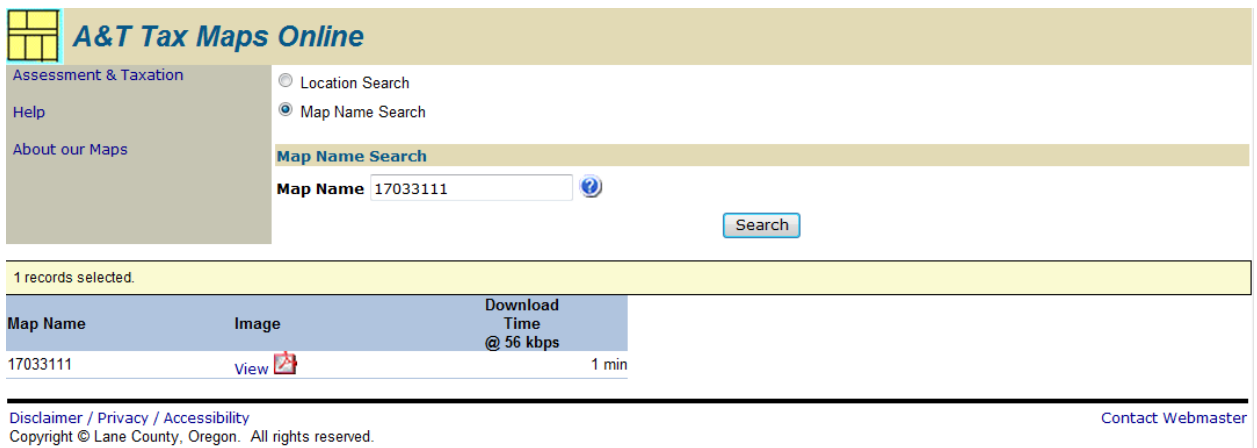

The screenshot shows the 'A&T Tax Maps Online' website. On the left is a navigation menu with 'Assessment & Taxation', 'Help', and 'About our Maps'. The main content area has two search options: 'Location Search' (selected) and 'Map Name Search'. Under 'Location Search', there are three input fields: 'Address' with '125 e 8th ave', 'City' with a dropdown menu set to 'All Cities', and 'Map Lot'. A 'Search' button is located below these fields. Below the search area, a yellow bar indicates '1 records selected.' A table displays the search results with columns: Address, City, Map Lot, Map Name, Image, and Download Time. The first row shows '125 E 8TH AVE', 'Eugene', '1703311110000', '17033111', a 'View' link with an image icon, and '1 min' download time. At the bottom, there is a footer with 'Disclaimer / Privacy / Accessibility' and 'Copyright © Lane County, Oregon. All rights reserved.' on the left, and 'Contact Webmaster' on the right.

Address	City	Map Lot	Map Name	Image	Download Time @ 56 kbps
125 E 8TH AVE	Eugene	1703311110000	17033111	View	1 min

Map Name Search

It is also possible to search by Map Name. The first 8 digits of Map Lot is the Map Name (or Map Number) and the last 5 digits represent the Taxlot Number. For example the Map Lot for 125 E 8th Ave is 1703311110000.

In the Map name field enter the 8 digit Map Number into the map name field

The screenshot shows the 'A&T Tax Maps Online' website. On the left is a navigation menu with 'Assessment & Taxation', 'Help', and 'About our Maps'. The main content area has two search options: 'Location Search' and 'Map Name Search' (selected). Under 'Map Name Search', there is one input field: 'Map Name' with '17033111'. A 'Search' button is located below this field. Below the search area, a yellow bar indicates '1 records selected.' A table displays the search results with columns: Map Name, Image, and Download Time. The first row shows '17033111', a 'View' link with an image icon, and '1 min' download time. Map Numbering System

The standard map number is based on the U.S. Rectangular Survey System (Township, Range, Section, 1/4 Section and 1/16 Section).

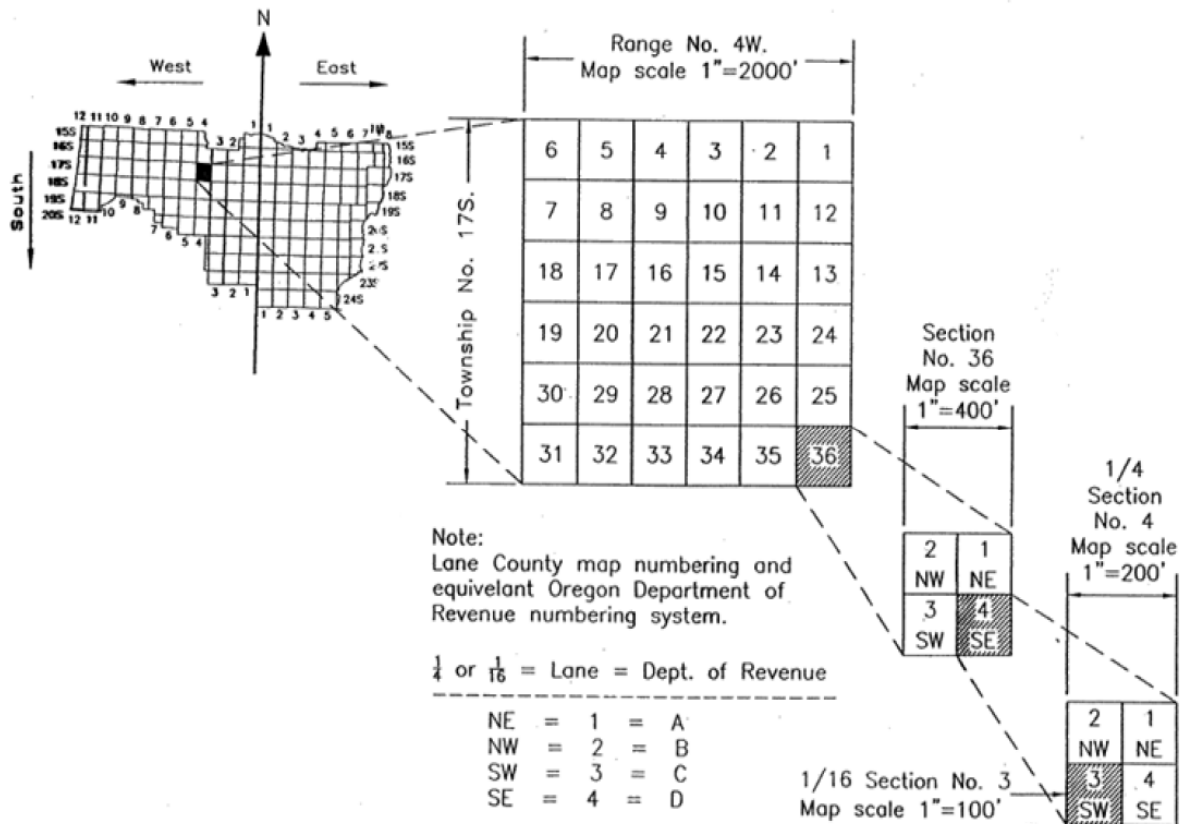

Map header reads as: **S.W. 1/4 S.E. 1/4 SEC. 36 T.17S. R.4W. W.M.**

1/16 SECTION 1/4 SECTION SECTION TOWNSHIP RANGE/SIDE OF WILLAMETTE MERIDIAN

Map number reads as: **17 04 36 4 3**

Township No. ↑
 Range No. ↑
 Section No. ↑
 1/4 Section No. ↑
 1/16 Section No. ↑

An illustration of where map 17043643 is in Lane County.

Map Scale

There are four standard map scales used in the cadastral map system. The map scale used is determined by the area being mapped, the quantity of detail to be shown, land use, and the number of parcels being mapped.

1"=2000'	One Township	e.g.) 21150000
1"=400'	One Section	e.g.) 18050100
1"=200'	One 1/4 Section	e.g.) 19120210
1"=100'	One 1/16 Section	e.g.) 17040123

Supplemental maps are an exception to the standard map scales and may be used to display condominiums in detail. Supplemental maps can be 1"=50' or 1"= 20' scale. These maps are distinguished from standard scale maps with S00# at the end of the map number (e.g. 17043634S001).

A Township is six square miles (more or less) and can be divided into 36 Sections. Each section is 1 square mile and 640 acres (more or less). Below is a picture of a township divided into sections. Sections can be divided into 1/4 Sections, and 1/4 Sections can be further divided into 1/16 Sections.

6	5	4	3	2	1
7	8	9	10	11	12
18	17	16	15	14	13
19	20	21	22	23	24
30	29	28	27	26	25
31	32	33	34	35	36

A section divided into 1/4 sections

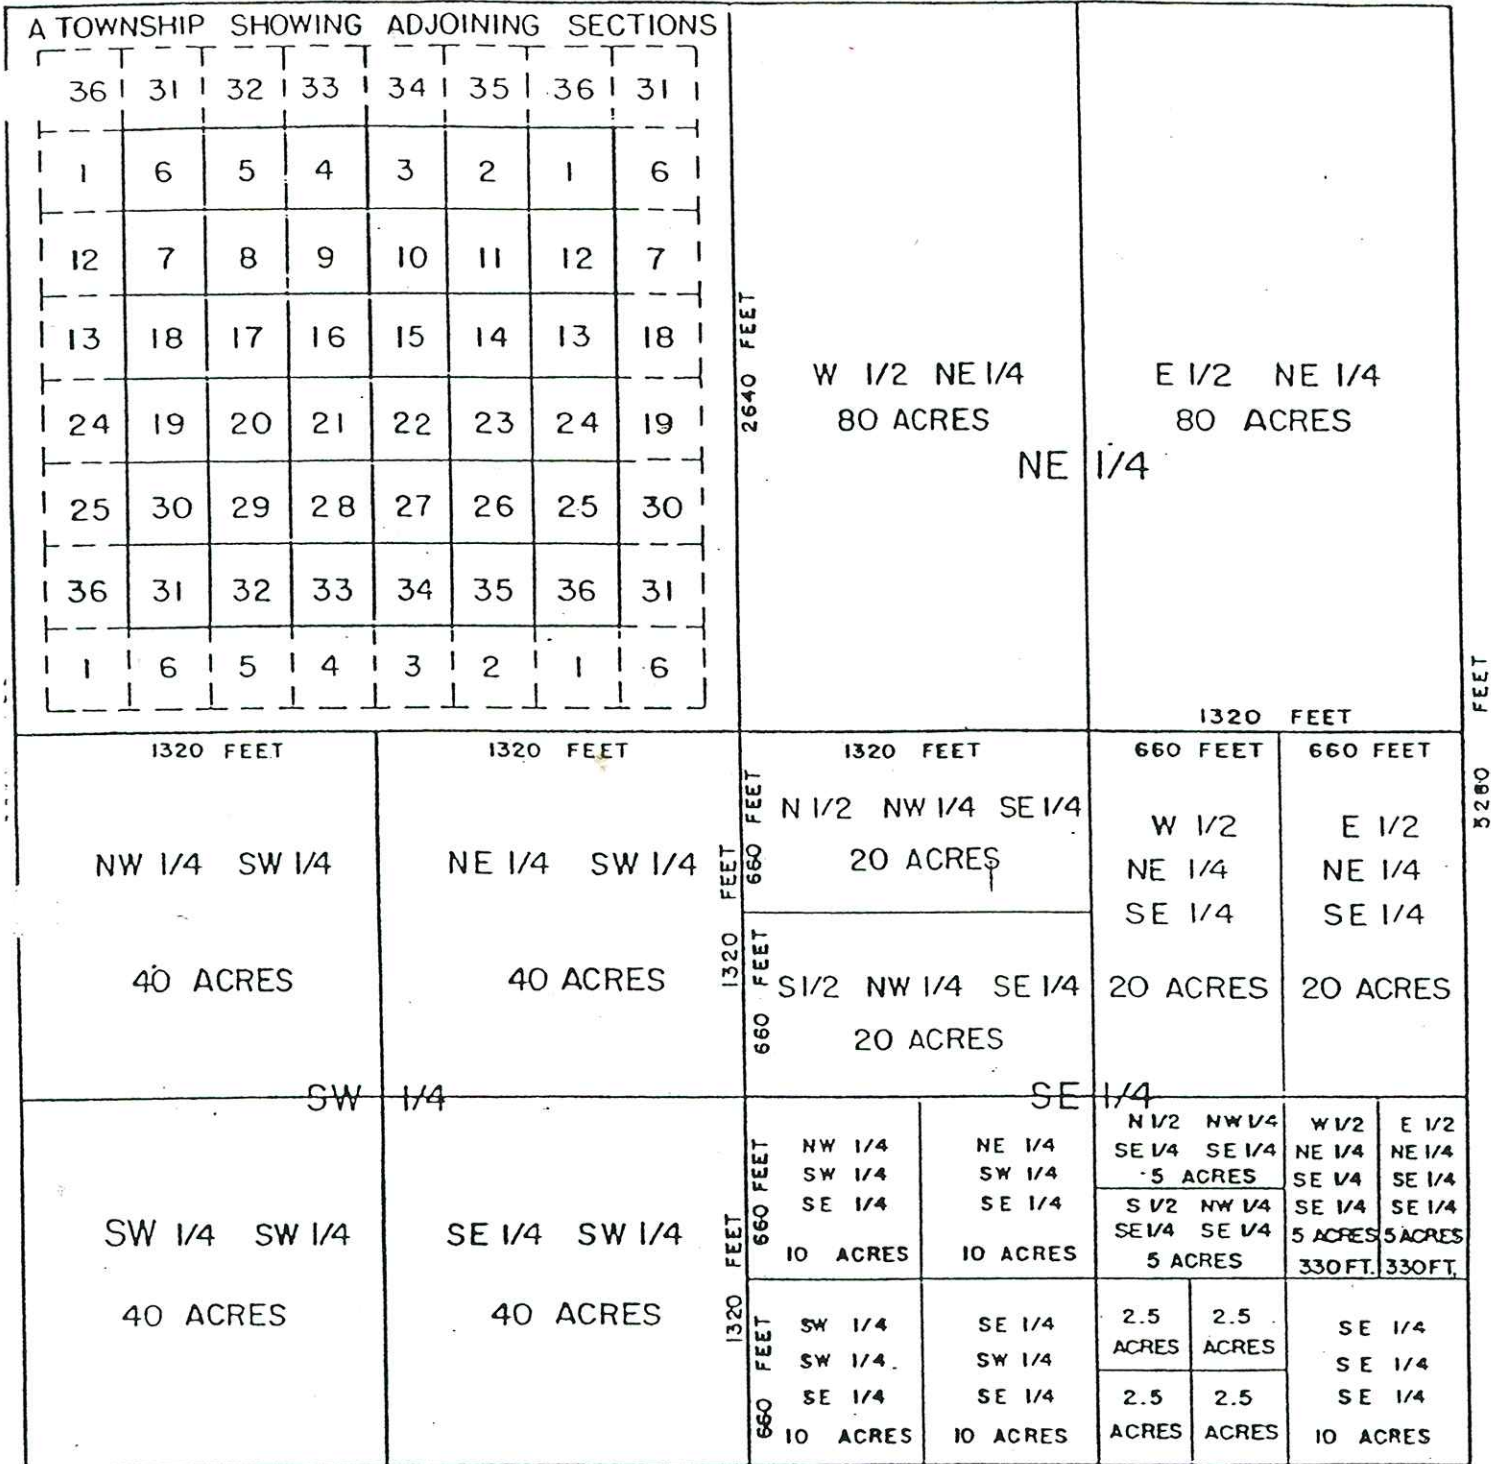

2 (NW1/4)	1 (NE1/4)
3 (SW1/4)	4 (SE1/4)

A section divided into 1/16 sections

22	21	12	11
23	24	13	14
32	31	42	41
33	34	43	44

DETAIL OF A SECTION OF LAND

5280 FEET

5280 FEET

LENGTH

- I LINK = 7.92 INCHES
- I CHAIN = 66 FEET = 100 LINKS
- ROD = 16.5 FEET = 25 LINKS
- MILE = 5280 FT. = 80 CHAINS

AREA

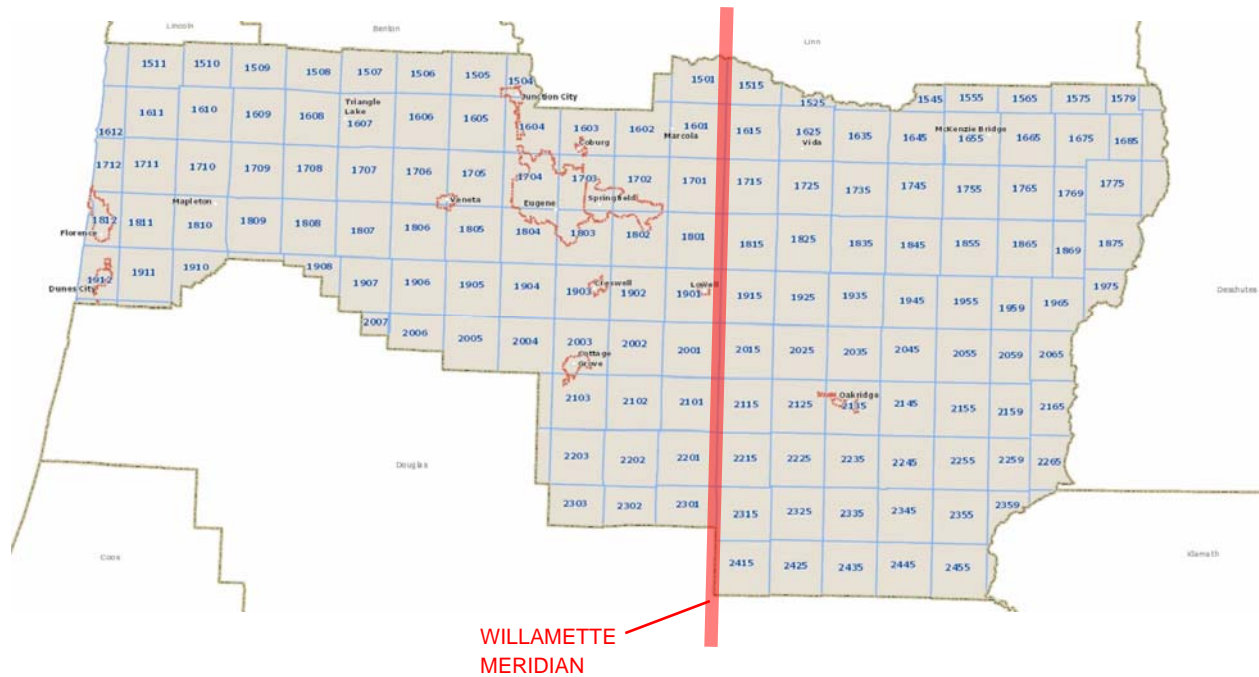

- I ACRE = 43,560 SQ. FT.
- I SEC. = 640 AC. = I SQ. MILE
- I TOWNSHIP = 36 SECTIONS
- I SQ. ACRE = 208.710 FEET SQ.

II 5A

East Range Numbering

In Lane County, the original computer system software would not accommodate letters in the map number, so “5” has been substituted for the letter “E” in eastern townships.

Lane County is divided by the Willamette Meridian. Ranges that are west of the Willamette Meridian are 2 digit numbers that start at 01 and increase by increments of 1 going west. Ranges that are east of the Willamette Meridian are also 2 digit numbers that start at 15 and increase by increments of 10 going east.
