

**EXCLUSIVE FARM USE ZONE (E-RCP)
RURAL COMPREHENSIVE PLAN**

16.212 Exclusive Farm Use Zone (E-RCP).

(1) Purpose. The purposes of the Exclusive Farm Use (E-RCP) Zone are:

(a) To preserve open land for agricultural use as an efficient means of conserving natural resources that constitute an important physical, social, aesthetic and economic asset to the people of Lane County and the state of Oregon, whether living in rural, urban, or metropolitan areas;

(b) To preserve the maximum amount of the limited supply of agricultural land in large blocks in order to conserve Lane County's economic resources and to maintain the agricultural economy of Lane County and the state of Oregon for the assurance of adequate, healthful and nutritious food for the people of Lane County, the state of Oregon, and the nation;

(c) To substantially limit the expansion of urban development into rural areas because of the unnecessary increases in costs of community services, conflicts between farm and urban activities and the loss of open space and natural beauty around urban centers occurring as the result of such expansion;

(d) To provide incentives for owners of rural lands to hold such lands in the exclusive farm use zone because of the substantial limits placed on the use of these lands and the importance of these lands to the public; and

(e) To identify and protect high value farm land in compliance with OAR 660 Division 33.

(2) Definitions. Except as otherwise provided in LC 16.212(2) below, the definitions in LC 16.090 shall be used for LC 16.212.

When a lot, parcel or tract is reconfigured pursuant to applicable law after November 4, 1993, the effect of which is to qualify a lot, parcel or tract for the siting of a dwelling, the date of the reconfiguration is the date of creation or existence. "Reconfigured" means any change in the boundary of the lot, parcel or tract.

(c) Dwelling. "Dwelling" means a "Dwelling, Single-Family" as defined by LC 16.090 and may include a manufactured dwelling. "Manufactured dwelling" and "manufactured home" shall have the meaning set forth in ORS 446.003(26).

For such a

determination, an owner of land where the use would occur may apply in writing to the Director to provide mailed notice of the determination to nearby owners pursuant to LC 14.100(3) and (4) with the opportunity for appeal pursuant to LC 14.500. The burden of proof in the application shall be upon the owner of land to demonstrate that the proposed use fits within the classification. The site cannot include an aggregate surface or hard surface unless the surface preexisted the use approved under this subsection. An owner of property used for the purpose authorized in this subsection may charge a person operating the use on the property rent for the property. An operator may charge users of the property a fee that does not exceed the operator's cost to maintain the property, buildings and facilities. As used in this subsection, "model aircraft" means a small version of an airplane, glider, helicopter, dirigible or balloon that is used or intended to be used for flight and is controlled by radio, lines or design by a person on the ground.

(i) Utility facilities necessary for public service, including wetland waste treatment systems but not including commercial facilities for the purpose of generating electrical power for public use by sale or transmission towers over 200 feet in height, provided such utility facilities comply with these requirements:

(aa) The utility facility shall be necessary for public service if it must be sited in the E-RCP zone in order to provide the service. To demonstrate that a utility facility is necessary, the applicant must show that reasonable alternatives have been considered and that the facility must be sited in the E-RCP zone due to one or more of the following factors:

- (A) Technical and engineering feasibility;
- (B) The proposed facility is locationally dependent. A utility facility is locationally dependent if it must cross land in one or more areas zoned E-RCP in order to achieve a reasonably direct route or to meet unique geographical needs that cannot be satisfied on other lands;
- (C) Lack of available urban and non-resource lands;
- (D) Availability of existing rights of way;
- (E) Public health and safety; and
- (F) Other requirements of state and federal agencies.

(bb) Costs associated with any of the factors listed in LC 16.212(4)(i)(i) above may be considered, but cost alone may not be the only consideration of determining that a utility facility is necessary for public service. Land costs shall not be included when considering alternative locations for substantially similar utility facilities and the siting of utility facilities that are not substantially similar.

(cc) The owner of a utility facility approved under LC 16.212(4)(i) above shall be responsible for restoring, as nearly as possible, to its former condition any agricultural land and associated improvements that are damaged or otherwise disturbed by the siting, maintenance, repair or reconstruction of the facility. (dd) The Approval Authority shall impose clear and objective conditions on an application for utility facility siting to mitigate and minimize the impacts of the proposed facility, if any, on surrounding lands devoted to farm use in order to prevent a significant change in accepted farming practices or a significant increase in the cost of farm practices on surrounding farmlands;

(ee) Utility facilities necessary for public service may include on-site and off-site facilities for temporary workforce housing for workers constructing a utility facility. Such facilities must be removed or converted to an allowed use when project construction is complete. Off-site facilities allowed under this paragraph are subject to LC 16.212(10)(f) through (g) below. Temporary workforce housing facilities not included in the initial approval may be considered through a minor amendment request. A minor amendment request shall have no effect on the original approval;

(ff) In addition to the requirements in LC 16.212(4)(i)(i) through (iv) above, the establishment or extension of a sewer system as defined by OAR 660-011-0060(1)(f) shall be subject to the requirements of OAR 660-011-0060;

(gg) In addition to the requirements in LC 16.212(i)(i) through (iv) above, a utility facility that is a telecommunication facility as defined by LC 16.264(2) shall comply with LC 16.264;

(hh) In addition to the requirements in LC 16.212(i)(i) through (iv) above, a utility facility that is a transmission line, as defined by ORS 215.276(1)(b), to be located on high value farmland shall comply with the requirements of ORS 215.276; and

(ii) The requirements in LC 16.212(4)(i)(i) through (iv) above do not apply to interstate natural gas pipelines and the associated facilities authorized by and subject to regulation by the Federal Energy Regulatory Commission.

(ii) An associated transmission line that is necessary for public service that meets either the requirements of LC16.212(4)(i)(ii)(aa) or (bb) below:

(aa) The entire route of the associated transmission line meets at least one of the following requirements:

(A) The associated transmission line is not located on high-value farmland, as defined in LC16.212(2)(e), or on arable land;

(B) The associated transmission line is co-located with an existing transmission line;

(C) The associated transmission line parallels an existing transmission line corridor with the minimum separation necessary for safety; or

(D) The associated transmission line is located within an existing right of way for a linear facility, such as a transmission line, road or railroad, that is located above the surface of the ground.

(bb) After an evaluation of reasonable alternatives, the entire route of the associated transmission line meets two or more of (A) through (E) below and LC 16.212(10)(f) and (g) below. The Approval Authority may consider costs associated with any of the factors listed in LC16.212(4)(i)(ii)(bb)(A) through (E) above, but consideration of cost may not be the only consideration in determining whether the associated transmission line is necessary for public service.

(A) Technical and engineering feasibility;

(B) The associated transmission line is locationally-dependent because the associated transmission line must cross high-value farmland, as defined in ORS 195.300, or arable land to achieve a reasonably direct route or to meet unique geographical needs that cannot be satisfied on other lands;

(C) Lack of an available existing right of way for a linear facility, such as a transmission line, road or railroad, that is located above the surface of the ground;

(D) Public health and safety; or

(E) Other requirements of state or federal agencies;

(F) The applicant shall present findings to the county on how the applicant will mitigate and minimize the impacts, if any, of the associated transmission line on surrounding lands devoted to farm use in order to prevent a significant change in accepted farm practices or a significant increase in the cost of farm practices on the surrounding farmland.

(aa) Any enclosed structures or group of enclosed structures described in LC 16.212(4)(j)(iv) above within a tract must be separated by at least one-half mile. For purposes of this section, "tract" means a tract as defined by ORS 215.010(2) that is in existence as of June 17, 2010.

(bb) Existing facilities wholly within a farm use zone may be maintained, enhanced or expanded on the same tract, subject to other requirements of law, but enclosed existing structures within a farm use zone within three miles of an urban growth boundary may not be expanded beyond the requirements of LC 16.212(4)(j)(iv) above.

(iii) LC 16.212(10)(f) through (g) below;

(iv) A private 'campground' is an area devoted to overnight temporary use for vacation, recreational or emergency purposes, but not for residential purposes. A private campground:

(aa) Shall be established on a site or be contiguous to lands with a park or other outdoor amenity that is accessible for recreational use by occupants of the campground.

(bb) Shall be designed and integrated into the rural agricultural and forest environment in a manner that protects the natural amenities of the site and provides buffers of existing native trees and vegetation and other natural features between campsites;

(cc) Shall not include intensively developed recreational uses such as swimming pools, tennis courts, retail stores or gas stations;

(dd) Shall not allow overnight temporary use in the same campground by a camper or camper's vehicle exceeding a total of 30 days during any consecutive six month period;

(ee) Shall not provide separate sewer, water or electric service hook-ups to individual campsites except that electric service may be provided to yurts as allowed by LC 16.212(4)(k)(iv)(ff) below;

(ff) May provide campsites to be occupied by a tent, travel trailer, recreational vehicle or yurt. (aa) The applicant must record a statement at Lane County Deeds and Records that the dwelling to be replaced has been removed, demolished, or converted.

(bb) If a dwelling is removed by moving it off the subject parcel to another location, the applicant must obtain approval from the permitting authority for the new location.

The Director shall maintain a record of the lots or parcels that do not qualify for the siting of a dwelling under the provisions of this subsection, including a copy of the deed restrictions and release statements filed under this section;

(v) If the dwelling formerly had features described in LC 16.212(5)(b)(ii), was removed from the tax roll as described in LC 16.212(5)(b)(i)(bb) or (cc), or has a replacement dwelling permit that expired before January 1, 2014, then the replacement dwelling must comply with the following:

(B) The Oregon Department of Agriculture has approved a permit for a "confined animal feeding operation" under ORS 468B.050 and ORS 468B.200 to 468B.230, and a producer license for the sale of dairy products under ORS 621.072.

(v) Lane County shall not approve any proposed division of a lot or parcel for an accessory farm dwelling approved pursuant to LC 16.212(6)(b) above. If it is determined that an accessory farm dwelling satisfies the requirements of a dwelling customarily provided in conjunction with farm use pursuant to LC 16.212(6)(a) above, a parcel may be created consistent with the minimum parcel size requirements in LC 16.212(9) below;

(vi) An accessory farm dwelling approved pursuant to LC 16.212(6)(b) above cannot later be used to satisfy the requirements for a dwelling not provided in conjunction with farm use pursuant to LC 16.212(6)(c) or (d) below; and

(vii) LC 16.212(10)(h) and (i) below.

(viii) Except in accordance with Section 34, Chapter 614, Oregon Laws 2015, a new dwelling used in conjunction with a marijuana crop is not permitted on land designated for exclusive farm use.

(c) For land located on the east side of the summit of the Coastal Range, a single family dwelling not provided in conjunction with farm use is allowed subject to compliance with the following requirements:

- (i) LC 16.212(10)(f) through (h) below;
- (ii) The dwelling will be sited on a lot or parcel that is predominantly composed of Class IV through VIII soils that would not, when irrigated, be classified as prime, unique, Class I or II soils;
- (iii) The dwelling will be sited on a lot or parcel created before January 1, 1993. See the definition of “Date of Creation and Existence” in LC 16.212(2)(b) above;
- (iv) The dwelling will not materially alter the stability of the overall land use pattern of the area. In determining whether a proposed non-farm dwelling will alter the stability of the land use pattern in the area, the accumulative impact of possible new non-farm dwellings and parcels on other lots or parcels in the area similarly situated shall be considered. To address this standard, the following requirements shall be met:
 - (aa) Identify a study area for the cumulative impacts analysis. The study area shall include at least 2,000 acres or a smaller area not less than 1,000 acres, if the smaller area is a distinct agricultural area based on topography, soil types, land use pattern, or the type of farm or ranch operations or practices that distinguish it from other, adjacent agricultural areas. Findings shall describe the study area, its boundaries, the location of the subject parcel within this area, why the selected area is representative of the land use pattern surrounding the parcel and is adequate to conduct the analysis required by this standard. Lands zoned for rural residential or other urban or non-resource uses shall not be included in the study area;
 - (bb) Identify within the study area the broad types of farm uses (irrigated or non-irrigated crops, pasture or grazing lands), the number, location and type of existing dwellings (farm, non-farm, hardship, etc.), and the dwelling development trends since 1993. Determine the potential number of non-farm dwellings that could be approved under LC 16.212(6)(c) above and under LC 16.212(7)(f) below, including the identification of predominant soil classifications, the parcels created prior to January 1, 1993, and the parcels larger than the minimum lot size that may be divided to create new parcels for non-farm dwellings under LC 16.212(9)(d) below. The findings shall describe the existing land use pattern of the study area including the distribution and arrangement of existing uses and the land use pattern that could result from approval of the possible non-farm dwellings under LC 16.212(6)(c) above and LC 16.212(7)(f) below;
 - (cc) Determine whether the approval of the proposed non-farm dwellings will materially alter the stability of the land use pattern in the area. The stability of the land use pattern will be materially altered if the cumulative effect of existing and potential non-farm dwellings will make it more difficult for the existing types of farms in the area to continue operations due to diminished opportunities to expand, purchase of lease farmland, acquire water rights or diminish the number of tracts or acreage in farm use in a manner that will destabilize the overall character of the study area;
- (v) The dwelling complies with such other conditions as the Approval Authority considers necessary; and
- (vi) Land use approval of a permit described in LC 16.212(6)(c) above shall be valid for four years from the date of the approval. Notwithstanding the requirements in LC 14.700(2)(d)(ii) and (iii), an application for a two year extension of the timelines for the permit approval described in LC 16.212(6)(c)(vi) above may be made and approved pursuant to LC 14.700(2).
- (vii) Except in accordance with Section 34, Chapter 614, Oregon Laws 2015, a new dwelling used in conjunction with a marijuana crop is not permitted on land designated for exclusive farm use.

(d) For land located west of the summit of the Coast Range, a single family dwelling not provided in conjunction with farm use is allowed subject to compliance with the following requirements:

(i) LC 16.212(10)(f) through (h) below;

(ii) The dwelling is situated upon a lot or parcel, or a portion of a lot or parcel, that is generally unsuitable land for the production of farm crops and livestock or merchantable tree species, considering the terrain, adverse soil or land conditions, drainage and flooding, vegetation, location and size of the tract. A lot or parcel shall not be considered unsuitable solely because of size or location if it can reasonably be put to farm or forest use in conjunction with other land and:

(aa) A lot or parcel shall not be considered "generally unsuitable" simply because it is too small to be farmed profitably by itself. If a lot or parcel can be sold, leased, rented or otherwise managed as a part of a commercial farm or ranch, it is not "generally unsuitable." A lot or parcel is presumed to be suitable if it is composed predominantly of Class I-IV soils. Just because a lot or parcel is unsuitable for one farm use does not mean it is not suitable for another farm use; or

(bb) If the parcel is under forest assessment, the dwelling shall be situated upon generally unsuitable land for the production of merchantable tree species recognized by the Forest Practices Rules, considering the terrain, adverse soil or land conditions, drainage and flooding, vegetation, location and size of the parcel. If a lot or parcel is under forest assessment, the area is not "generally unsuitable" simply because it is too small to be managed for forest production profitably by itself. If a lot or parcel under forest assessment can be sold, leased, rented or otherwise managed as a part of a forestry operation, it is not "generally unsuitable". If a lot or parcel is under forest assessment, it is presumed suitable if it is composed predominantly of soils capable of producing 50 cubic feet of wood fiber per acre per year. If a lot or parcel is under forest assessment, to be found compatible and not seriously interfere with forest uses on surrounding land it must not force a significant change in forest practices or significantly increase the cost of those practices on the surrounding land;

(iii) The dwelling will not alter the stability of the overall land use pattern of the area. In determining whether a proposed non-farm dwelling will alter the stability of the land use pattern in the area, consideration shall be given to the cumulative impact of non-farm dwellings on other lots or parcels in the area similarly situated by applying the standards in LC 16.212(6)(c)(iv)(aa) through (cc) above;

(iv) The dwelling complies with such other conditions as the Approval Authority considers necessary; and

(v) Land use approval of a permit described in LC 16.212(6)(d) above shall be valid for four years from the date of the approval. Notwithstanding the requirements in LC 14.700(2)(d)(ii) and (iii), an application for a two year extension of the timelines for the permit approval described in LC 16.212(6)(d)(v) above may be made and approved pursuant to LC 14.700(2).

(vi) Except in accordance with Section 34, Chapter 614, Oregon Laws 2015, a new dwelling used in conjunction with a marijuana crop is not permitted on land designated for exclusive farm use.

(e) A dwelling customarily provided in conjunction with a commercial dairy farm that complies with these requirements:

(i) As used in LC 16.212(6)(e) above, a "commercial dairy farm" is a dairy operation that owns a sufficient number of producing dairy animals capable of earning at least \$80,000 in gross annual income from the sale of fluid milk;

(ii) The dwelling will be occupied by a person or persons who will be principally engaged in the operation of the commercial dairy farm, such as the feeding,

milking or pasturing of the dairy animals or other farm use activities necessary for the operation of the commercial dairy farm;

(iii) The building permits, if required, have been issued for or construction has begun for the buildings and animal waste facilities required for a commercial dairy farm;

(viii) LC 16.212(10)(h) and (i) below.

(f) A dwelling customarily provided in conjunction with farm use is allowed subject to compliance with these requirements:

(i) Within the previous two years, the applicant owned and operated a different farm or ranch operation that earned \$80,000 in gross annual income from the sale of farm products in the last five years or four of the last seven years;

(ii) The subject lot or parcel on which the dwelling will be located is:

(aa) Currently employed for farm use, as defined in LC 16.090, that produced \$80,000 in gross farm income in the last two years, or three of the last five years or an average in three of the last five years; and

(bb) At least the size of the applicable minimum lot size under LC 16.212(9)(a);

(iii) Except as permitted in ORS 215.213(1)(r) (1999 Edition), there is no other dwelling on the subject tract;

(iv) The dwelling will be occupied by a person or persons who produced the commodities which gross the income in LC 16.212(6)(f)(i) above;

(v) In determining the gross income required by LC 16.212(6)(f)(i) and (ii)(aa) above:

(aa) The cost of purchased livestock shall be deducted from the total gross income attributed to the tract; and

(bb) Only gross income from land owned, not leased or rented, shall be counted.

(vi) LC 16.212(10)(h) and (i) below.

(vii) Except in accordance with Section 34, Chapter 614, Oregon Laws 2015, a new dwelling used in conjunction with a marijuana crop is not permitted on land designated for exclusive farm use.

(7) Allowable Residential Uses On Land That Is Not High Value Farmland. The following residential uses are allowed on land that is not high value farm land subject to the general provisions and exceptions specified by this Chapter of Lane Code and subject to prior submittal of an application pursuant to LC 14.050, approval of the application pursuant to LC 14.100 with the options for the Director to conduct a hearing or to provide written notice of the decision and an opportunity for appeal. Final approval

of a non-farm use authorized under LC 16.212(7) below shall not be given unless any additional taxes imposed on the change in use have been paid.

(a) A “160 acre parcel” dwelling customarily provided in conjunction with farm use is allowed subject to compliance with the following requirements:

(i) The parcel on which the dwelling is located is at least 160 acres and not designated as rangeland;

(b) A dwelling customarily provided in conjunction with farm use is allowed subject to compliance with the following requirements:

(i) The subject tract is currently employed for farm use that produced in the last two years, or three of the last five years or an average of three of the last five years \$32,500 in gross annual income (the midpoint of the median income range of gross annual sales of farms in Lane County with annual sales of \$10,000 or more according to the 1992 Census of Agriculture, Oregon) from the sale of farm products. In determining the gross income required by this subsection, the cost of purchased livestock shall be deducted from the total gross income attributed to the farm operation. Only gross income from land owned, not leased or rented, shall be counted. Gross income earned from a lot or parcel which has been used previously to qualify another lot or parcel for the construction or siting of a primary farm dwelling may not be used. For the purpose of LC 16.212(7)(b)(i), parcels zoned E-RCP in Lane County or for farm use in counties contiguous with Lane County, not including Deschutes County or Klamath County, may be used to meet the gross income requirements;

(ii) The dwelling will be occupied by a person or persons who produced the commodities which grossed the income mentioned in LC 16.212(7)(b)(i) above;

Lane County shall require all accessory farm dwellings approved under LC 16.212(7)(e)(iii)(cc) to be removed, demolished, or converted to a non-residential use when farm worker housing is no longer required. "Farmworker housing" shall have the meaning set forth in ORS 215.278 and not the meaning in ORS 315.163;

Notwithstanding the requirements in LC 14.700(2)(d)(ii) and (iii), an application for a two year extension of the timelines for the permit approval described in LC 16.212(7)(g)(vi) above may be made and approved pursuant to LC 14.700(2); and

(vii) The dwelling complies with other conditions considered necessary by the Approval Authority.

(h) A dwelling customarily provided in conjunction with a commercial dairy farm that complies with these requirements:

(i) As used in LC 16.212(7)(h) above, a "commercial dairy farm" is a dairy operation that owns a sufficient number of producing dairy animals capable of earning at least \$32,500 (the mid point of the median income range of gross annual sales

(vii) Except in accordance with Section 34, Chapter 614, Oregon Laws 2015, a new dwelling used in conjunction with a marijuana crop is not permitted on land designated for exclusive farm use.

(8) Farm Operations.

(a) A farm operation is all agricultural activities occurring under a single management. For purposes of this section, it is immaterial whether the activities occur on a single parcel of land, on contiguous parcels of land or on separate parcels of land. It is

also immaterial if the operator has less than fee interest in the land on which the agricultural activity occurs.

(b) Farm operations shall be classified into one of the groups set forth in LC 16.212(8)(d) below. In the event a farm operation consists of agricultural activities described by more than one group, the activity that accounts for more than half of the gross revenue of the farm operation shall determine the group classifications.

(c) Farm operations of a size equal to or greater than the size shown for its respective group in LC 16.212(8)(d) below shall be deemed as contributing in a substantial way to the agricultural economy of the County.

<u>Farm Group</u>	<u>Size</u>
Cash grains	120 acres
Field crops (includes grass seed production)	160 acres
Tree fruit and nuts	40 acres
Horticultural specialties.....	20 acres
General farm, primarily crop.....	320 acres

(9) Area. Land within the Exclusive Farm Use District shall be designated as E-25, E-30, E-40 or E-60, consistently with Agricultural Lands Policy #10 of the Lane County Rural Comprehensive Plan. The creation of a lot or parcel shall comply with the requirements in LC Chapter 13 for the submittal and approval of tentative plans and plats and with LC 16.212(9)(a) through (n) below.

(a) Except as provided in LC 16.212(9)(b), (c) and (d) below, the minimum area shall be:

E-25	25 acres
E-30	30 acres
E-40	40 acres
E-60	60 acres

(b) A division of land may be allowed down to 20 acres for horticultural specialties, berries and grapes. A farm management plan including the factors identified below shall address and establish the suitability of the land for the intended use:

- Fencing.
- Surveying.
- Crop cultivation.
- Irrigation.
- Herbicide; fungicide and/or fertilizer application.
- Machinery.
- Accessory farm buildings.
- Breeding and livestock raising concerns.
- Labor.
- Projected expenses associated with the above.
- Date by which the farm management plan would be substantially

implemented.

(c) A division of land may be allowed for a non-farm use identified in LC 16.212(4) above, provided:

- (i) The parcel for the non-farm use is not larger than the minimum size necessary for the use;
 - (ii) Any additional tax imposed for the change in use has been paid; and
 - (iii) Notwithstanding LC 16.212(9)(c) above, a division of land shall not be approved for a use allowed by LC 16.212(4)(c), (h), (i), (m), (q), (r), (s), (u), (v), (b-b), (e-e), (f-f), and (l-l) above.
