

## Client Eligibility and Enrollment

### C.3

#### CCare Eligibility

Oregon women and men are eligible for CCare if they meet the following criteria:

- Resident of Oregon
- Reproductive age (10 – 60 for women; 10 and older for men)
- Not sterilized
- Can provide proof of ID
- Can provide Social Security Number
- Can prove U.S. citizenship, or have been lawful permanent residents for five years or more
- At or below 185% of the federal poverty level (FPL) based on family income and size. (Teens are determined eligible based on individual income).
- Do not have creditable insurance coverage.

#### Key Points

- Eligibility and enrollment must be documented on the CCare Enrollment form, as part of the client's medical record, and in the CCare Eligibility database.

Once determined, eligibility is effective for 12 months regardless of income or FPL changes during that period. However, changes in insurance status will affect CCare eligibility immediately.
