PHYSICIAN

DEFINITION

The Physician provides professional, comprehensive primary medical care and treatment services to a diverse population of patients in a public health clinic setting. The Physician diagnoses and treats a wide variety of health problems, provides counseling and referrals for patients when appropriate, and performs related duties as assigned.

SUPERVISION RECEIVED AND EXERCISED

Receives administrative direction from the Community Health Center Medical Officer.

Exercises technical and functional supervision over technical and professional personnel.

EXAMPLES OF DUTIES - Duties may include, but are not limited to the following:

Medically evaluates patients and assesses their medical status in both the clinic and hospital setting.

Determines, establishes and administers an overall treatment program for patients and chronically ill clients.

Determines the clinical need for medications, and prescribes medications as part of a treatment program.

Provides information, consultation and assistance to other health care professionals.

Discusses case management practices and techniques with health care professionals.

Provides appropriate medical records documentation on all patients in accordance with policy.

Provides emergency treatment and after hours coverage.

MINIMUM QUALIFICATIONS

Knowledge of:

Principles and practices of general, preventive and clinical medicine, surgery and pharmacology.
