

## **ROAD MAINTENANCE 2**

### DEFINITION

To operate medium to heavy equipment in construction, maintenance or waste management projects and to perform skilled manual tasks on highway, bridges, landfills, transfer sites and other construction or maintenance projects.

### CLASS CHARACTERISTICS

This is the full journey level class within the Road Maintenance series. This class is distinguished from the Road Maintenance 1 by the assignment of the full range of duties including the operation of medium to heavy equipment. Employees at this level are fully aware of the operating procedures within the work unit and receive only occasional instruction or assistance as new or unusual situations arise.

### SUPERVISION RECEIVED AND EXERCISED

Receives general supervision from a Road Maintenance Supervisor, and technical and functional supervision from a Lead Worker or Road Maintenance 3.

### EXAMPLES OF DUTIES - Duties may include, but are not limited to the following:

Operates power mowers, rollers, dump truck, loader, spray truck driver, spreader box, self-propelled or truck- or trailer-mounted sweepers, tractors (D-4 or smaller), flatbed truck, distributor truck driver, forklift, curb paver and Vac-Ael driver.

Assists bridge carpenter or bridge supervisor in construction and repair of bridges.

Assists in preparing holes on projects requiring explosives.

Operates small power equipment and tools such as power saws, chippers, gas-powered mud and water pumps and generators.

Prepares asphalt on paving or patching projects by raking to proper depth prior to rolling.

Prepares materials, manufactures and erects signs, drives paint striper, operates fog line of striper truck, operates stencil truck and all other sign department equipment.

May perform level 3 Road Maintenance duties in a training capacity or out-of-class assignments, provided any required licenses and related requirements have been obtained.
