<b>Leverage</b>	<b>None</b>	Some	HIGH

**Executive Summary**

The shelter and navigation center operational funding was identified as part of priority-based budgeting process to fulfill the commitment from the Board of Commissioners to implement the recommendations of the Shelter Feasibility Study which is a roadmap to end homelessness with specific investments in shelter, housing and supportive services. The Study was approved by the Board and Eugene City Council in May 2019. Homelessness is a community crisis and fully funding the shelter operations will require additional community partners provide matching funds.

**Service Descriptions**

	Revenue	Expense Total	General Fund	FTE
<b>Adopted Budget Total</b>	\$0	\$1,000,000	\$1,000,000	0.00
<b>Addition</b>	\$0	\$1,000,000	\$1,000,000	0.00

Provide for services and operations consistent with the homeless navigation center model that has been implemented across the West Coast in cities such as Portland, San Francisco, and San Diego which provide intensive case management to help support people in regaining stability, connecting to essential support services, and accessing stable and permanent housing options in a way that is low-barrier. This shelter will allow Lane County to reduce the number of unsheltered homeless in communities on a given night. Additionally, its low barrier nature will provide an avenue for engaging in services that is more accessible to individuals who experience challenges accessing and benefiting from traditional service models, allowing us to better serve parts of our unsheltered population that are largely underserved as this time. Annual projected cost of \$2,100,000. Assumes a November 2020 start for FY 20-21.
