Elevator Contractor Question or Concern

Subject Payment and performance bond

Question 1. Apart from meeting the requirements of ORS 279C.380, per section 11.1.2 of the specification, is there a particular bond form/template that shall be used?
2. Does the payment and performance bond cover preventive maintenance AFTER the project work and one year of warranty maintenance? Does bond need to cover warranty maintenance period?

Suggestion None

ECS Response 1. There is no particular bond form/template required.
2. The payment and performance bond is just for the modernization work (and work by others) and does not need to cover the interim, warranty or ongoing maintenance work.
