1. Clarification on the current Learning Management System in the RFP "LEAP":

LEAP is the internal name assigned to the Lane County LMS system, the compatibility with the system is not about working with a particular vendor, the compatibility necessary to work with our internal system, since it is web based, are files that are published in HTML5 and that are AICC or SCORM compliant that we can upload into our system. These are industry standards that govern the communication of data between courses and the LMS so courses can plug and play into any LMS.
