AGENDA COVER MEMO

DATE: October 12, 2005 Board Date
TO: Lane County Board of Commissioners
DEPT.: Public Works/Land Management Division
PRESENTED BY: Commissioner Morrison
TITLE: ORDER / In the Matter of Appointing One Member (Todd Johnston) to the Lane County Planning Commission

I. MOTION

MOVE TO APPOINT ONE MEMBER (Todd Johnston) TO THE LANE COUNTY PLANNING COMMISSION.

II. ISSUE OR PROBLEM

There is a need to appoint one new member to serve on the Lane County Planning Commission due to the expiration of Marion Esty's 2nd term.

III. DISCUSSION

A. Background

Lane Code and Lane Manual provide that the Planning Commission shall be established and that the Lane County Planning Commission shall consist of nine voting members to perform the duties and functions of the Planning Commission. Also, at least one member shall be from the coastal area of Lane County, and another must be a resident or own property on the coast. There is currently one vacant position on the Lane County Planning Commission (not from the coastal area).

B. Analysis

County Administration advertised the vacancy in July & August, 2005 and received two applications in addition to nineteen others that had been kept on file to be considered for future vacancies. All applications received are attached.

The Board designated Commissioners Morrison and Stewart as a subcommittee to conduct interviews as provided by Lane Manual Section 3.506(2) (h). The recommendation of this subcommittee is for the new appointment of Todd Johnston.

Lane Manual and the ORS require that no more than two members of the Planning Commission be engaged in the buying, selling, or developing of real estate for profit as individuals, or be members of any partnership or officers or employees of any corporation that is engaged principally in the buying, selling or developing of real estate for profit. Also, no more than two voting members of the Planning Commission shall be engaged in the same kind of occupation.

Lane Manual requires the Lane County Planning Commission to consist of nine voting members, each of whom shall be a resident of Lane County, and at least three of the voting members shall reside outside cities and at least two shall reside within cities.

Of the eight remaining Lane County Planning Commission members, five (Kirkham, Carmichael, Arkin, Nichols, and Sullivan) reside outside city limits and three (Dignam, Becker, and Siekiel-Zdzienicki) reside inside city limits. The applicant, Todd Johnston, resides inside city limits. Composition of the planning commission, with the proposed appointment, would meet the Lane Manual residency and occupational requirements.

C. Alternatives/Options

1. Accept the subcommittee's recommendation to appoint Todd Johnston.
2. Appoint another applicant for this position.
3. Re-advertise and reopen the search for the vacancy.
4. Do not appoint a member to the Lane County Planning Commission.

D. Recommendations

Alternative 1 above.

E. Timing

Staff will follow-up the Board's recommendation immediately. Appointment and thank you letters are not included with this packet. The letters will follow pending the Board's decision.

IV. IMPLEMENTATION/FOLLOW-UP

1. Send appointment letter to successful candidate.
2. Send appreciation letters.
3. Prepare information packets and orientation session for new member.
4. Re-open application process if so directed.

V. ATTACHMENTS

1. Board Order
2. Copy of the Citizen Advisory Committee Appointments memo
3. Lane County Planning Commission Roster
4. Copies of each completed application

** Unless waived by the Board.*

1. I have lived and worked in Eugene for approximately ten years and, in that time, I have had the opportunity to work for two of the most prominent law firms in Eugene, Gleaves Swearingen Potter & Scott LLP and Hershner Hunter, LLP, representing a multitude of local and regional businesses, individuals and nonprofit organizations. My experience living in Lane County and working in the legal profession has provided me with opportunities to apply the analytical training that is necessary in sophisticated business practice to a multitude of local matters, including issues involving local land use and development, representing both businesses and individuals with dramatically varying objectives. I believe my ability to take a measured approach to difficult issues and utilize my analytical skills in a reasonable way, combined with my desire to participate in and contribute to the planning process in Lane County, will be of considerable value to the Committee.

2. The primary reasons I would like to be a member of this Committee include: an interest in participating in the local planning process, a desire to interact with and contribute to the community and to promote interest in local planning and zoning among younger members of the our community. Further, I am committed to the function of the land use system in a way that allows all individuals equal opportunity for their applications to be reviewed and analyzed under the same criteria and adjudged accordingly based upon the evidence presented. Over the past six years, I have developed a reputation for being hard working, analytical and reasonable in my approach to complex legal issues and disputes. I believe that my contributions to the Committee in these areas would be invaluable.

3. Community concerns that I would particularly like to participate in are, generally, maintaining a reliable and effective planning process in light of considerable and ongoing budget constraints and, specifically, participating in the much needed overhaul of the County Parks and Open Space Master Plan update. Lane County enjoys a unique and diverse landscape that must be critically examined in order to maintain the delicate balance between development of its resources and the protection of the same in order to maintain the attributes that have drawn us all to live here.

4. I have been heavily involved in pro bono legal work in Lane County and, more particularly, have contributed significant amounts of time to work with Lane County Legal Aid, providing legal services to low income clients in Lane County.

5. Despite living and working as an attorney in Lane County for approximately ten years, I expect to be the youngest member of the Committee. I understand that participation from individuals in my age group, 30-35, is unfortunately limited and I hope that some of our viewpoints, visions for the future of Lane County and energy will be brought to the Committee through my participation.

#2

I would like to be a member of the Planning Commission Advisory Committee because I have strong roots to this community. As a lifetime citizen of Lane County, I feel I offer an extensive knowledge of the people of the county. Raised in Thurston, and now a resident of Eugene, I understand the unique makeup of this community. In addition, my experience with the youth in the community will give a fresh voice to the Planning Commission.

#3

I believe that there needs to be stronger collaboration between the different governmental agencies in the county. In a time where citizens are demanding services without sufficient funding, the county needs to explore collaborative efforts with the city governments and school districts of this community in order to offer needed benefits to the citizens of Lane County. As the county government, it is the commissions' responsibility to take the lead on this project. It is my goal to see the conversations that need to occur for the mutual efforts to take place.

I would also like to see the county take a different perspective on land use regulations. There needs to be an open dialogue among progressives and business owners to find an agreement between no-growth and unregulated building. The county needs to plan for industry to employ the citizenry and increase taxable income. Additionally, the county needs to protect the valuable open spaces that make this county attractive to tourists and businesses.

#5

As a member of this community, I strive to open lines of communication to all individuals. As a student leader, I made the effort to include many voices from a wide range of backgrounds in developing policy and programs. In addition, I believe that because of my age I offer a unique perspective, without lacking the necessary experience to be successful in this commission.

Responses to Application Questions

1. Managed a professional office (Ophthalmology) with 7 figure gross income for 35 years. Office staff of up to 7 persons. Responsible for financial planning, personnel issues and medical and surgical decision making. On a daily basis, decisions were based on the nature of the issue at hand, personal experience and experience of others in handling such matters, and the risks versus the benefits of all the possible courses of action to resolve the issue. Some issues concerned long term planning, e.g. whether or not to become involved in managed care, and if so how deeply.
2. I want to be a citizen involved in assisting the county's orderly and fair land planning and usage. I would picture my role on the Commission as that of reviewing all the available inputs on a particular matter at hand, seeing if a stated position was in keeping with county ordinances, and projecting as to whether a proposed action was consistent with long term goals in land planning.
3. Most important and basic is the continuing question of balancing most effective land use, in harmony with preservation of environmental quality, maintaining the quality of life style that Lane County is famous for, and with the former in mind maximizing the desirability of Lane County as a location for businesses.
4. Active member of "Smash", an ad hoc group of McKenzie Valley residents who have been active in opposing the McKenzie highway (route 126 east of Springfield to Santiam Pass) in being designated as a "freight route".

Member of the board of Angel Flight West (Oregon Wing), a volunteer group that provides free air transportation to financially needy patients for travel from their home to where they are receiving treatment.

5. When considering matters coming before the Commission, I would attempt to make decisions based on the nature of the matter itself, and without prejudice for or against the personal characteristics of the persons impacted by the decisions.
