**Rich Reardon – Application for Citizen Advisory Committee: Resource Recovery**

1. I am qualified for this position because I currently work in the recycling field for an international manufacturer of waste and recycling systems. I am a member of the National Recycling Coalition and was a guest speaker at the 2008 convention in Pittsburgh.  
I work with communities throughout the country and have been exposed to different programs, realizing the advantageous and disadvantageous of each. This experience provides me with the practical knowledge to advise and critique for this committee.
2. I would like to become a member of this committee because I am passionate about recycling and diverting material away from landfills. Everyday this is the challenge that I face in my professional career. Helping communities in our country is a very satisfying endeavor, and now I would like the opportunity to contribute to the community where I live.  
I hope to make Lane County the premier green community in the nation, with the highest recovery and diversion rates. I believe that we have the citizenry and attitude to be the shining example of these possibilities.
3. The three community concerns that I would like to see addressed if appointed would be:
  - 1) Encouragement of community participation
  - 2) Recovery methodology at the transfer stations and prior to Short Mountain.
  - 3) Community education through the Master Recycler Program and at community functions
4. I would contribute to the effort of equal participation in Lane Counties programs, services, and activities by encouraging all in this community to give what they can. I have a philosophy that I live and work by and that is that our input is consistently stronger when we respect, support, and view each other as partners. If appointed to this committee, I will continue to encourage and act on this way of thinking.
