1. Give a brief description of the experience or training that qualifies you for membership on this advisory committee (If you wish, you may attach a resume or other pertinent material).  
I have extensive experience serving on committees at the University of Oregon and earned the Wayne T Westling Award in 2020 for my service (<https://blogs.uoregon.edu/senate/awards-2/wayne-t-westling-award/>). I retired from UO in July 2020 and was honored with this tribute: <https://design.uoregon.edu/celebrating-kassia-dellabough-advocate-all-students> (see attached)
2. Why do you want to become a member of this committee, and what specific contributions do you hope to make?  
My personal experience with parks and the outdoors has shown me the importance of creating accessible green spaces to both build community and offer accessible respite for all of us struggling with a rapidly changing world. I have appreciated the value of connecting with nature all my life from "playing in the woods" to backpacking the Northwest. The recognition of the power of connecting with nature has influenced urban planning as well as the medical fields that now
3. List the community concerns related to this committee that you would like to see addressed if you are appointed.  
Support for designated parks and greenspace across sectors, appropriate budget allocation to maintain and develop parks that serve all communities equitably and consider how we communicate and educate the public about parks to engender a sense of stewardship among all citizens.

As you can see from my background I have been immersed in the University of Oregon community and now ready to engage in the larger community of Lane County.
5. Lane County is committed to reflecting diverse cultures on its boards/committees and does not discriminate against any person on the basis of race, color, national origin, age, disability, sex, religion, language, ethnicity, socio-economic status, sexual orientation, gender identity or expressions, veteran's status, or political beliefs in employment or in admission, treatment, or participation in its programs, services, and activities. If selected, how would you contribute to this effort?

I would bring my passion for this and the skills and awareness I gained from being an advocate for equity and inclusion for decades in my work at UO. I participated in trainings, workshops and also presented on topics to increase awareness and skills of myself, colleagues and students - these included "Whats Up With Whiteness", College of Design Equity Committee Chair, Micro

Question 1:

I have extensive experience serving on committees at the University of Oregon and earned the Wayne T Westling Award in 2020 for my service

(<https://blogs.uoregon.edu/senate/awards-2/wayne-t-westling-award/>). I retired from UO in July 2020 and was honored with this tribute: <https://design.uoregon.edu/celebrating-kassia-dellabough-advocate-all-students>

After time for reflection and rest I have been considering ways to bring my skills of hammering out policy among very divergent opinions on committees in my community. As the Director of Student Services, and a Career Advisor, for the College of Design I had the opportunity to work with a wide range of people and tackle the very difficult issues of budget cuts, prioritizing equity and access, and the emerging mental health issues of youth today. I bring a keen understanding of budget and resource challenges as well as a respect for the value of different viewpoints to arrive at the best solution to issues. I was recognized for my communication skills and ability to listen and synthesize complex information in service to the committees I was on. see <https://blogs.uoregon.edu/senate/awards-2/wayne-t-westling-award/kassia-dellabough-2020-uo-senate-wayne-t-westling-award/> Here is a link to resume and profile <https://blogs.uoregon.edu/kassia/>

Question 2:

My personal experience with parks and the outdoors has shown me the importance of creating accessible green spaces to both build community and offer accessible respite for all of us struggling with a rapidly changing world. I have appreciated the value of connecting with nature all my life from "playing in the woods" to backpacking the Northwest. The recognition of the power of connecting with nature has influenced urban planning as well as the medical fields that now prescribe time with nature as a component of healing depression and other ailments. With the current pressure to grow in Lane County, I think is essential that we insure parks are developed in parallel to housing and infrastructure and that we make sure we resource the maintenance to sustain them.

Question 5:

I would bring my passion for this and the skills and awareness I gained from being an advocate for equity and inclusion for decades in my work at UO. I participated in trainings, workshops and also presented on topics to increase awareness and skills of myself, colleagues and students - these included "Whats Up With Whiteness", College of Design Equity Committee Chair, Micro aggressions, OSU Search Advocate, Oregon Young Scholars Faculty, on-going staff peer supervision and teaching and research for my PhD on art facilitating cultural competency. I believe each of us have the responsibility to commit to ongoing reflection and education to continue cultivating a capacity to dismantle our assumptions and biases.

## **Lane County Parks Natural Areas Operations Report for February 2022 - Ed Alverson**

-I completed edits and formatting to the book containing the results of the 2020 University of Oregon Landscape Architecture studio, where students analyzed the conditions at the summit of Mt. Pisgah and developed designs to address issues related to habitat management and visitor experience. The resulting book is now posted on the Lane County parks website at:

[https://lanecounty.org/government/county\\_departments/public\\_works/parks/planning\\_development/management\\_plans](https://lanecounty.org/government/county_departments/public_works/parks/planning_development/management_plans)

-I finished editing and distributed the notes from the December 2021 HBRA Habitat Advisory Team meeting, where the attendees were split into four break-out groups to brainstorm strategies for four different topics related to the HBRA Habitat Management Plan.

-I met with Jason Blazar from Friends of Buford Park and Jessica Gallimore from BLM about submitting an application for the next round of BLM Community Assistance fuels reduction funding.

-I worked with other staff to develop conditions of approval for several Special Use Permits for activities in HBRA, including a research proposal to document mushroom species diversity in burned and unburned prairie and savanna.

-I worked on updating and editing Parks' "Key Contact" list of supporters, partners, and other officials.

-I made a site visit to the Old McKenzie Hatchery to meet with a University of Oregon Landscape Architecture student, Darby Pierce, who is working on a trail plan for the park as part of her thesis project.

-I revisited Hendricks Bridge Park to check on the boat ramp mitigation plantings that were completed by our contractor.

-I revisited Blue Mountain Park to check on a "dam" across Mosby Creek made of boulders and cobbles that had been blocking fish passage; I shared with regulatory agency officials my observation that fish passage was no longer blocked due to the effects of high flows over the winter.

-I visited Deeds and Records to do property research for several Lane County Parks.

-Partnership efforts: I gave a presentation on prescribed burning to the Rivers to Ridges Executive Team, including an overview of 2021 accomplishments. I also participated in a Friends of Buford Park Trails Committee meeting, bi-weekly HBRA stakeholder meetings, the wrap-up meeting of the Lane County Bicycle Master Plan technical committee, and a meeting of the Community Wildfire Protection Plan stakeholder group.
