

Lane County Emergency Operations Center Public Information Update

Revised: 03/7/19 at 9:00am

The following is an information update from the Lane County Emergency Operations Center (EOC) provided by the Lane County Public Information Officer (PIO). Lane County will update this report regularly and will repost to the County Website, share on social media and provide local media, public safety and government partners.

Safety Message:

- Check on neighbors, friends, family, and outdoor animals to make sure they have the resources they need to be safe during this winter event (heat, food, water, medical and animal needs).
- Be cautious when removing tree debris from your driveways and/or homes or other structures – unstable debris can create a safety hazard while removing. Try to work with more than one person or make sure someone knows you are outside and have a time to check in.
- Carbon Monoxide Poisoning – Generators or other devices powered by fuel that cause fumes should be placed outside the house to ensure safety. Carbon monoxide is an odorless, colorless gas that often goes undetected, striking victims caught off guard or in their sleep. The National Safety Council recommends you install a battery-operated carbon monoxide detector in your home near the bedrooms.
- If you are choosing to leave your home during a power outage be sure to turn off all major appliances especially any items on a stove or heating device. When the power is restored the heating device stove will reheat and possibly become a fire hazard.

Weather Updates:

The National Weather Service is the best resource to receive up to date information on current or forecasted weather conditions: <https://www.weather.gov/>.

Download the FEMA mobile app for weather alerts: <https://www.fema.gov/mobile-app>.

Power Updates:

The most up-to-date information is available directly through your power service provider (see contact information on the last page of this update). General estimates are up to 7-10 days in outlying areas.

If your home remains without power and your neighbors appear to have power restored, try to reset your breakers by switching them OFF and then ON. If resetting the breakers doesn't work, the service line between a transformer and your residence may need to be repaired. Please look for damaged service lines or damaged meters to determine whether you may need to make repairs before power can be restored to your home. Always call to report an outage to help line crews isolate these local issues.

3/7 Updates from Utilities:

- *EWEB* – ~100 without service (*update from 3/5*)
- *EPUD* – <400 without service in Creswell, Saginaw, Cottage Grove, Dexter, Pleasant Hill and Jasper
- *Lane Electric* – 971 without service; 90.3% restored; believe majority will have power restored by Thursday, March 7

Welfare Checks:

- If you know of a vulnerable individual, who is in need of assistance (homebound, medically fragile) you can contact the Lane County Sheriff’s Office non-emergency dispatch line at 541-682-4141 to let them know.
- Any emergency or threat to life should go directly to 911.

Shelters and Warming Centers:

Type	Location/ Area	Address	Hours	Pets/Other Info
Shelter/ Warming	Leaburg	McKenzie Fire Training Center - Hwy 126, MP 20 42870 McKenzie Highway, Leaburg, OR 97489	24/7	No pets
Warming	Lowell	Lowell Fire Station 389 N. Pioneer Street, Lowell	24/7	

Road Closures/Limited Access/Detours:

*All county roads have been made passable unless there are downed power lines still blocking the right-of-way. Crews have begun de-icing Priority 1 routes in anticipation of freezing temperatures.

[Lane County Ice and Snow Removal Plan](#) at

https://lanecounty.org/government/county_departments/public_works/road_maintenance_division.

- **Highway 58:**
 - Reopened to public access at 6:00 p.m. on Friday, March 1.
- **Limited Access:**
 - Many private roads or special district roads have not yet been cleared, use caution in these areas.
- **Detours:** None reported at this time.

Road Updates:	<ul style="list-style-type: none"> • State Highways, www.tripcheck.org or 511 • County Roads – check the county website – we will post the information to this update report. • Special District – currently special road districts do not have a centralized way to report their closures – Lane County will post information as they receive it.
----------------------	--

Boil Water Notices:

- (1) [Homestead Park](#) [Creswell] (35 people)
- (2) [Cerro Gordo Cooperative](#) [Cottage Grove] (20 people)

Health and Medical Resources:

- If you have a non-emergency medical supply need (meds, oxygen, supplies) contact your primary care provider/supplier first. If this is a medical emergency call 911.

Food and Water Resources:

- If you are experiencing a long term power outage be mindful of food safety issues, refrigerator and freezer temperatures.
- If you are returning home after a long term power outage (more than 2 days) you need a way to verify if the items in your refrigerator/freezer maintained appropriate temperatures before cooking/eating them. Frozen foods at or below 0°F and refrigerators at or below 40°F to be considered safe.
