IMPROPER USE OF EMERGENCY TELEPHONE SYSTEM

6.600 Findings and Intent.

The Board of Commissioners finds that there has been deliberate and knowing use of 9-1-1 telephone lines for the purpose of initiating a false report, placing a prank call or making a request for emergency services where there exists no true emergency, and that Public Safety Answering Points (PSAPs) in Lane County experience repeated calls from citizens for emergency services when there exists no true emergency. Responding to such unlawful requests for services requires the use of personnel and equipment such that they are not available for response in the event of a true emergency. The purpose of this subchapter is to reduce such abuse and deliberate misuse of the 9-1-1 emergency telephone system and emergency services provided by the public safety agencies of Lane County to ensure the availability of 9-1-1 and other emergency telephone lines for the reporting of true emergencies in order that personnel and equipment may be available for use in true emergency situations, which will conserve energy and resources and reduce costs.
