

IMPORTANT INFORMATION ABOUT YOUR HEALTH INSURANCE COVERAGE

Community Health Centers of Lane County (CHCLC) will see all patients regardless of their health insurance status or coverage.

Our practice may not be participating and/or preferred under all commercial health insurance plans. If we are not participating or contracted with your health insurance plan, the services we provide as well as items such as referrals to specialists, prescriptions and medical equipment may not be covered. We encourage you to consult your health insurance carrier if you have questions concerning your benefits for services rendered by our practice.

We have several programs available to help you if your health plan does not cover all your services. These include:

- **Sliding Fee Discount Program** (even if you have insurance)
 - This program is specific to services provided by the CHCLC and CHCLC providers.
 - The Sliding Fee Discount Program does not cover outside referrals to specialist offices, labs, imaging, diagnostics, prescriptions, etc.
- **Reduced Cost and/or No-Cost Family Planning Services**

Please ask staff for more information about these and other programs that can help cover services provided by the CHCLC.
