They also reviewed a list of committee goals for 2015 and made revisions. The Parks Manager will update the goals to reflect the suggested changes and will present them at the next meeting for further review. Volunteerism was a topic that committee members would like added to a future meeting agenda.

Advisory Committee Vacancies – Pat Hoover was affirmed in January’s meeting by consent to represent the PAC as Chair for another 4-year term. It was believed that Mr. Jim Mayo was interested in serving on the committee as Commissioner Leiken’s appointee, however Mr. Russell has not been able to speak with Mr. Mayo personally and emails have not been returned. Mr. Russell will pursue obtaining a phone number for Mr. Mayo and attempt contact.

Initial Draft Master Plan – There was discussion on the draft document produced so far. A revised timeline was presented for delivery of future chapters and continued review. The current goal is to have an opportunity for public input sometime in April or May, review with the Planning Commission in June, and a final draft to the BCC, and adoption sometime in September or October. Committee members will continue to review the draft and were encouraged to submit comments and changes to Dave Stockdale.

Large Events Task Force – Mr. Dunlap provided an update of the recent LETF meeting where the committee adopted 4 position statements: a mission statement; revenue as a motivation; legality; and appropriateness. He and Mr. Stoneburg reported that task force members agreed that the focus now will be on regulation and definition. Mr. Russell stated that the task force is authorized to continue until June 2015 and although there has been progress, commissioners may extend the commitment if necessary.

Mr. Russell and Mr. Stockdale talked about the public opinion survey that LCP has mailed to 2,000 registered voters. The survey topic concentrates on whether to hold large events in county parks as well as questions related to the parks master plan update. Survey recipients were randomly selected by a local consultant who will process the data and provide the results to parks staff and the LETF committee.
